**UNDERWATER WELDING TECHNOLOGY
TRAINING FOR PROFESSIONAL DIVER**

This program is a professional program (course) that offers a highly specialized training, designed for commercial divers and welders who are serious in obtaining high quality underwater welding skills. **MM MATRIX INTEGRITY (M) SDN BHD (MMMI)** under the license of Weldcraft-Pro UK and **UWEC MMMI** is one of the Weldcraft-Pro approved training schools in the **WORLD**. In fact, it is the first Malaysian company that promotes and offers the niche professional underwater wet welding course. The final program comes with a grand certificate of Verified Achievement issued by EAL besides competence and WQT (E4) certificates. EAL is part of SEMTA - Sector Skills Council for Science, Engineering and Manufacturing Technologies and is UK's leading awarding-body for engineering qualifications. With these certifications, you will be entitled to do underwater welding works anywhere in the world!

What make our course so special

- ▶ Less than 2 week course!
- ▶ Very affordable price for any kind of verified achievement underwater welding course.
- ▶ Internationally recognized course (by ABS, IMAREST, Zurich Surveyor & EAL).
- ▶ UWEC is the only approved wet welding school in Asia.
- ▶ Very friendly, helpful, integrated and competent Instructors.
- ▶ Dual-language; English & Malay (better understanding and communication) – Hence easy to pass and score the exam with Distinctions!

What we offer

- ▶ Safe underwater welding
- ▶ Introduction to SMAW / MMA plant & equipment
- ▶ Underwater welding techniques
- ▶ Preparing to weld
- ▶ Electrode & weld terminology
- ▶ Basic weldability & common weld defects
- ▶ Monitor & record welding operations / write WPS
- ▶ Quality assurance & quality control

Requirements

- ▶ You must be a commercial diver (pre-requisite)
- ▶ No need any previous welding experience, we will teach you from scratch!
- ▶ You must be 18 years old (min) and above.
- ▶ You must be medically fit before you can enrol this course.

Career opportunities:

- ▶ Can work professionally with any local or international underwater engineering company – Of course with better income compared to any other wet welders.
- ▶ Can become an internationally Competent Wet Welder in the shortest time ever!

Special features

- Lodging / meals/ Approved teaching materials
- Diving suits and other facilities
- Consumables (Barracuda electrodes, welding plates and etc)
- Examinations (visual examination, fracture test and macro test)
- International Certificates
